Attached please find my Notice of Objection in relation to the \_\_\_\_\_ taxation years.

This Notice of Objection arises from the same facts and circumstances as the Notices of Objection being filed in response to the Temex Resources Corp. (BN 88941 3084) reassessments in respect of Canadian exploration expenses (CEE) renounced effective December 31, 2014. These Objections all relate to the tax treatment of CEE arising out of the same facts, for the same taxation years. Please direct this Notice of Objection to the same Appeals Officer assigned to the Temex Resources Corp. Objections.

Yours truly,
