

LAKE SHORE GOLD

a subsidiary of

PAN AMERICAN
— SILVER —

About the Organization

Lake Shore Gold, a subsidiary of Pan American Silver, is located in Timmins, Ontario. The Bell Creek Complex, located approximately 20 kilometers northeast of Timmins, Ontario, consists of an underground mine and processing facility. Mineralization is associated with the Porcupine-Destor fault system within the Abitibi greenstone belt, with ore mined by narrow vein longhole stoping methods. Ore is then transported to surface via a modern one thousand eighty metre deep shaft capable of forty-eight hundred tonnes per day.

The Timmins West mine is located approximately 18 kilometers west of Timmins, Ontario, one of the world's most prolific gold camps. Mineralization is associated with the Porcupine-Destor fault system within the Abitibi greenstone belt. The Timmins West mine is comprised of the Timmins deposit, the Thunder Creek deposit, and the 144 Gap deposit. All three deposits are interconnected by underground drifts.

About Timmins, Ontario

Timmins is a vibrant community of 45,000 residents that is a central hub for Northeastern Ontario. People can enjoy recreational activities such as camping, world class fishing, nature, and snowmobile trails. Direct flights to Toronto are available at the local airport via multiple carriers. There are many support networks in the community including the local Timmins and District Hospital, local sports leagues for children and adults (hockey, baseball, basketball, etc.), golf courses, both cross country and downhill ski resorts, a community pool, and many other community events that provide entertainment throughout the year - fairs, carnivals, concerts, and more!

About the Opportunity

We are looking to hire **Heavy Equipment Mechanics** to join our team at the **Timmins West Mine** in **Timmins, ON.**, and **Bell Creek Mine** in **Porcupine, ON.**, on a **full-time basis**.

The schedule is 5-5-4, 10 hr shifts rotating days and nights.

In this position, you will safely and efficiently perform maintenance activities to preserve the condition of the mobile heavy equipment fleet in all areas of the mine: troubleshooting, cleaning, lubricating, adjusting, inspecting, repairing, component replacement & rebuild, welding, fabrication and low voltage electrical repairs of heavy equipment.

Please note that this role requires relocation to the Timmins area and is not a camp-based position.
