About the Organization

Lake Shore Gold, a subsidiary of Pan American Silver, is located in Timmins, Ontario. The Bell Creek Complex, located approximately 20 kilometers northeast of Timmins, Ontario, consists of an underground mine and processing facility. Mineralization is associated with the Porcupine-Destor fault system within the Abitibi greenstone belt, with ore mined by narrow vein longhole stoping methods. Ore is then transported to surface via a modern one thousand eighty metre deep shaft capable of forty-eight hundred tonnes per day.

The Timmins West mine is located approximately 18 kilometers west of Timmins, Ontario, one of the world's most prolific gold camps. Mineralization is associated with the Porcupine-Destor fault system within the Abitibi greenstone belt. The Timmins West mine is comprised of the Timmins deposit, the Thunder Creek deposit, and the 144 Gap deposit. All three deposits are interconnected by underground drifts.

About Timmins, Ontario

Timmins is a vibrant community of 45,000 residents that is a central hub for Northeastern Ontario. People can enjoy recreational activities such as camping, world class fishing, nature, and snowmobile trails. Direct flights to Toronto are available at the local airport via multiple carriers. There are many support networks in the community including the local Timmins and District Hospital, local sports leagues for children and adults (hockey, baseball, basketball, etc.), golf courses, both cross country and downhill ski resorts, a community pool, and many other community events that provide entertainment throughout the year - fairs, carnivals, concerts, and more!

About the Opportunity

We are looking to hire **Long Hole Loaders** to join our team at the **Timmins West Mine in Timmins, ON.** and **Bell Creek Mine in Porcupine, ON.**, on a **full-time basis**.

The schedule is 5-5-4, 10 hr shifts rotating days and nights each week.

In this position, you will be responsible for reading and interpreting blast layouts and using bulk and packaged explosives. Duties will include, but are not limited to, cleaning holes and preparing for blasts; laying out detonators and boosters; stemming of holes; installation and grouting of cable bolts, ensuring proper columns on holes and tying in blasts using Nonel and Electronic Initiation systems.

Please note that this role requires relocation to the Timmins area and is not a camp-based position.
