⁽¹⁾ See table below entitled "Metal price assumptions used to estimate mineral reserves and mineral resources as at June 30, 2024".

⁽²⁾ Table has been updated to reflect the completion of the sale on December 2, 2024, of Pan American's interest in La Arena S.A., which owns the La Arena gold mine and the La Arena II copper-gold project.

⁽³⁾ This information represents the portion of mineral reserves attributable to Pan American based on its ownership interest in the operation entity as indicated.

⁽⁴⁾ Totals may not add up due to rounding. Total average grades of each metal are with respect to those mines that produce the metal.

⁽¹⁾ See table below entitled "Metal price assumptions used to estimate mineral reserves and mineral resources as at June 30, 2024".

⁽²⁾ Mineral resources are reported exclusive of mineral reserves.

⁽³⁾ Table has been updated to reflect: the completion of the sale of Joaquin on October 10, 2024; and the completion of the sale on December 2, 2024, of Pan American's interest in La Arena S.A., which owns the La Arena gold mine and the La Arena II copper-gold project.

⁽⁴⁾ Manantial Espejo was placed on care and maintenance in January 2023.

⁽⁵⁾ This information represents the portion of mineral resources attributable to Pan American based on its ownership interest in the operating entity as indicated.

⁽⁶⁾ Totals may not add up due to rounding. Total average grades of each metal are with respect to those mines that produce the metal.

General Notes Applicable to the Foregoing Tables

All mineral reserves and mineral resources have been estimated in accordance with the *CIM Definition Standards on Mineral Resources and Mineral Reserves*, adopted by the CIM Council, as amended (the "CIM Standards") and reported in accordance with National Instrument 43-101 – *Standards of Disclosure for Mineral Projects* ("NI 43-101"). Mineral resources are reported exclusive of mineral reserves.

Pan American does not expect these mineral reserve and mineral resource estimates to be materially affected by metallurgical, environmental, permitting, legal, taxation, socio-economic, political, and marketing or other relevant issues.

The Company has undertaken a verification process with respect to the data disclosed in this news release. The mineral resource and mineral reserves databases comprising drilling and, in some cases, surface and underground sampling, have been compiled at each of the Pan American mine sites by the qualified staff. All the assay data used in the resource evaluation provided by each of the mines has been subjected to the industry standard quality assurance and quality control ("QA/QC") program including the submission of certified standards, blanks, and duplicate samples. The results are reviewed monthly by management. The results of the QA/QC samples submitted for the resource databases demonstrate acceptable accuracy and precision. The Qualified Person is of the opinion that the sample preparation, analytical, and security procedures followed for the samples are sufficient and reliable for the purpose of these mineral resource and mineral reserve estimates. Pan American is not aware of any drilling, sampling, recovery or other factors that could materially affect the accuracy or reliability of the data reported herein.

Quantities and grades of contained metal are shown before metallurgical recoveries.

Technical information contained in this news release with respect to Pan American has been reviewed and approved by Christopher Emerson, FAusIMM., Vice President of Exploration and Geology, and Martin Wafforn, P.Eng., Senior Vice President Technical Services and Process Optimization, who are each Qualified Persons for the purposes of NI 43-101.

Pan American Silver Corp. is authorized by The Association of Professional Engineers and Geoscientists of the Province of British Columbia to engage in Reserved Practice under Permit to Practice number 1001470
