

PRESENTATION // OCTOBER 2025

PAN AMERICAN
— SILVER —

THE WORLD'S PREMIER SILVER MINING COMPANY

NYSE | TSX
PAAS

CAUTIONARY NOTE

Non-GAAP Measures

This presentation of Pan American Silver Corp. and its subsidiaries (collectively, “Pan American”, “Pan American Silver”, the “Company”, “we” or “our”) refers to various non-GAAP measures, such as “AISC”, “free cash flow”, “total availability liquidity”, and “capital”. These measures do not have any standardized meaning prescribed by IFRS and are therefore unlikely to be comparable to similar measures presented by other companies. Pan American’s silver segment AISC are calculated net of credits for realized revenues from all metals other than silver and are calculated per ounce of silver sold. Pan American’s gold segment AISC are calculated net of credits for realized revenues from all metals other than gold and are calculated per ounce of gold sold.

Readers should refer to the “Alternative Performance (Non-GAAP) Measures” section of the Company’s Management’s Discussion and Analysis (“MD&A”) for the period ended June 30, 2025 available at www.sedarplus.ca.

Reporting Currency and Financial Information

Unless we have specified otherwise, all references to dollar amounts or \$ are to United States dollars.

Cautionary Note Regarding Forward Looking Statements and Information

Certain of the statements and information in this presentation, including any information relating to Pan American’s future oriented financial information, constitute “forward-looking statements” within the meaning of the United States Private Securities Litigation Reform Act of 1995 and “forward-looking information” within the meaning of applicable Canadian provincial securities laws. All statements, other than statements of historical fact, are forward-looking statements or information. Forward-looking statements or information in this presentation relate to, among other things: the benefits expected to be derived from Pan American’s acquisition of MAG Silver Corp. (“MAG”); Juanicipio’s forecasted production in 2025; Juanicipio’s expected free cash flow; estimated mineral reserve and mineral resource information; expectations regarding the ILO 169 consultation process with respect to

Escobal; Pan American’s future growth and exploration success; Pan American’s future return of capital to shareholders; Pan American’s liquidity; Pan American’s forecasted silver production in 2025; Pan American’s free cash flow in 2025; expectations regarding mineral reserve replacement; and Pan American’s planned sale of its interest in La Pepa; expectations regarding the Jacobina optimization study and any benefits expected to be derived therefrom; and Pan American’s plans and expectations for its properties and operations.

These forward-looking statements and information reflect Pan American’s current views with respect to future events and are necessarily based upon a number of assumptions that, while considered reasonable by Pan American, are inherently subject to significant operational, business, economic and regulatory uncertainties and contingencies. These assumptions include: tonnage of ore to be mined and processed; future anticipated prices for gold, silver and other metals and assumed foreign exchange rates; the timing and impact of planned capital expenditure projects, including anticipated sustaining, project, and exploration expenditures; the ongoing impact and timing of the court-mandated ILO 169 consultation process in Guatemala; risks related to increased barriers to trade, including tariffs and duties; ore grades and recoveries; capital, decommissioning and reclamation estimates; our mineral reserve and mineral resource estimates and the assumptions upon which they are based; prices for energy inputs, labour, materials, supplies and services (including transportation); no labour-related disruptions at any of our operations; no unplanned delays or interruptions in scheduled production; all necessary permits, licenses and regulatory approvals for our operations are received in a timely manner; our ability to secure and maintain title and ownership to mineral properties and the surface rights necessary for our operations, including contractual rights from third parties and adjacent property owners; whether Pan American is able to maintain a strong financial condition and have sufficient capital, or have access to capital through our corporate credit facility or otherwise, to sustain our business and operations; and our ability to comply with environmental, health and safety laws. The foregoing list of assumptions is not exhaustive.

Pan American cautions the reader that forward-looking statements and information involve known and unknown risks, uncertainties and other factors that may cause actual results and developments to differ materially from those expressed or implied by such forward-looking statements or information contained in this presentation and Pan American has made assumptions and estimates based on or related to many of these factors. Such factors include, without limitation: the duration and effect of local and world-wide inflationary pressures, tariffs and the potential for economic recessions; fluctuations in silver, gold and base metal prices; fluctuations in prices for energy inputs, labour, materials, supplies and services (including transportation); fluctuations in currency markets; operational risks and hazards inherent with the business

of mining (including environmental accidents and hazards, industrial accidents, equipment breakdown, unusual or unexpected geological or structural formations, cave-ins, flooding and severe weather); risks relating to the credit worthiness or financial condition of suppliers, refiners and other parties with whom Pan American does business; inadequate insurance, or inability to obtain insurance, to cover these risks and hazards; employee relations; relationships with, and claims by, local communities and indigenous populations; our ability to obtain all necessary permits, licenses and regulatory approvals in a timely manner; changes in laws, regulations and government practices in the jurisdictions where we operate, including environmental, export and import laws and regulations; changes in national and local government, legislation, taxation, controls or regulations and political, legal or economic developments in Canada, the United States, Mexico, Peru, Argentina, Bolivia, Guatemala, Chile, Brazil or other countries where Pan American may carry on business, including legal restrictions relating to mining, risks relating to expropriation and risks relating to the constitutional court-mandated ILO 169 consultation process in Guatemala; diminishing quantities or grades of mineral reserves as properties are mined; increased competition in the mining industry for equipment and qualified personnel; those factors identified under the caption “Risks Related to Our Business” in Pan American’s most recent Form 40-F and Annual Information Form filed with the United States Securities and Exchange Commission and Canadian provincial securities regulatory authorities, respectively.

Although Pan American has attempted to identify important factors that could cause actual results to differ materially, there may be other factors that cause results not to be as anticipated, estimated, described or intended. Investors are cautioned against undue reliance on forward-looking statements or information. Forward-looking statements and information are designed to help readers understand management’s current views of our near- and longer-term prospects and may not be appropriate for other purposes. Pan American does not intend, nor does it assume any obligation to update or revise forward-looking statements or information, whether as a result of new information, changes in assumptions, future events or otherwise, except to the extent required by applicable law.

CONTINUED ON NEXT PAGE

CONTINUED

THIS PRESENTATION DOES NOT CONSTITUTE (AND MAY NOT BE CONSTRUED TO BE) A SOLICITATION OR OFFER BY PAN AMERICAN OR ANY OF OUR RESPECTIVE DIRECTORS, OFFICERS, EMPLOYEES, REPRESENTATIVES OR AGENTS TO BUY OR SELL ANY SECURITIES OF ANY PERSON IN ANY JURISDICTION, OR A SOLICITATION OF A PROXY OF ANY SECURITYHOLDER OF ANY PERSON IN ANY JURISDICTION, IN EACH CASE, WITHIN THE MEANING OF APPLICABLE LAWS.

Technical Information

All mineral reserves and mineral resources have been estimated in accordance with the *CIM Definition Standards on Mineral Resources and Mineral Reserves*, adopted by the CIM Council, as amended (the “CIM Standards”) and reported in accordance with National Instrument 43-101 – *Standards of Disclosure for Mineral Projects* (“NI 43-101”). Mineral resources are reported exclusives of mineral reserves. Pan American does not expect these mineral reserve and mineral resource estimates to be materially affected by metallurgical, environmental, permitting, legal, taxation, socio-economic, political, and marketing or other relevant issues. The Company has undertaken a verification process with respect to the data disclosed in this presentation. The mineral resources and mineral reserves databases comprising drilling and, in some cases, surface and underground sampling, have been compiled at each of the Pan American mine sites by the qualified staff. All the assay data used in the resource evaluation provided by each of the mines has been subjected to the industry standard quality assurance and quality control (“QA/QC”) program including the submission of certified standards, blanks, and duplicate samples. The results are reviewed monthly by management. The results of the QA/QC samples submitted for the resource databases demonstrate acceptable accuracy and precision. The Qualified Person is of the opinion that the sample preparation, analytical, and security procedures followed for the samples are sufficient and reliable for the purpose of these mineral resource and mineral reserve estimates. Pan American is not aware of any drilling, sampling, recovery or other factors that could materially affect the accuracy or reliability of the data reported herein. Quantities and grades of contained metal are shown before metallurgical recoveries.

For further information on the Company’s pre-MAG transaction material mineral properties, including detailed information concerning associated

QA/QC and data verification matters, the key assumptions, parameters and methods used by the Company to estimate mineral reserves and mineral resources, and for a detailed description of known legal, political, environmental, and other risks that could materially affect the Company’s business and the potential development of the Company’s mineral reserves and mineral resources, see the Company’s Annual Information Form dated February 19, 2025, available on the Company’s profile at www.sedarplus.ca.

Technical information contained in this presentation with respect to Pan American has been reviewed and approved by Christopher Emerson, FAusIMM., Senior Vice President of Exploration and Geology, Christopher Wright P.Geo. Vice President Mineral Resource Management and Martin Wafforn, P.Eng., Senior Vice President Technical Services and Process Optimization, who are all Qualified Persons for the purposes of NI 43-101. Pan American Silver Corp. is authorized by The Association of Professional Engineers and Geoscientists of the Province of British Columbia to engage in Reserved Practice under Permit to Practice number 1001470.

Pan American completed the acquisition of MAG on September 4, 2025, which added a 44% joint venture interest in the large-scale, high-grade Juanicipio silver mine in Zacatecas, Mexico, operated by Fresnillo plc, along with MAG’s interests in the Deer Trail and Larder exploration projects (collectively, the “MAG Properties”). For information regarding the MAG Properties, please see MAG’s Annual Information Form dated March 24, 2025, filed at www.sedarplus.ca.

Cautionary Note to U.S. Investors Concerning Estimates of Mineral Reserves and Resources

Unless otherwise indicated, all reserve and resource estimates included in this presentation have been prepared in accordance with Canadian NI 43-101 and the Canadian Institute of Mining, Metallurgy and Petroleum (the “CIM”) — *CIM Definition Standards on Mineral Resources and Mineral Reserves*, adopted by the CIM Council, as amended (the “CIM Standards”). NI 43-101 is a rule developed by the Canadian Securities Administrators that establishes standards for all public disclosure an issuer makes of scientific and technical information concerning mineral projects. Canadian standards, including NI 43-101, differ significantly from the requirements of the SEC, and reserve and resource information included herein may not be comparable to similar information disclosed by U.S. companies. In particular, and without limiting the generality of the foregoing, this presentation uses the terms “measured

resources,” “indicated resources” and “inferred resources” as defined in accordance with NI 43-101 and the CIM Standards. U.S. investors are advised that, while such terms are recognized and required by Canadian securities laws, the SEC does not recognize them. The requirements of NI 43-101 for identification of “reserves” are not the same as those of the SEC and may not qualify as “reserves” under SEC standards. Under U.S. standards, mineralization may not be classified as a “reserve” unless the determination has been made that the mineralization could be economically and legally produced or extracted at the time the reserve determination is made. U.S. investors are cautioned not to assume that any part of an “indicated resource” will ever be converted into a “reserve”. U.S. investors should also understand that “inferred mineral resources” have a great amount of uncertainty as to their existence and great uncertainty as to their economic and legal feasibility. It cannot be assumed that all or any part of “inferred resources” exist, are economically or legally mineable or will ever be upgraded to a higher category. Under Canadian securities laws, estimated “inferred mineral resources” may not form the basis of feasibility or pre-feasibility studies except in rare cases.

DIVERSIFIED ASSETS + GROWTH CATALYSTS

// Pan American's portfolio offers scale & quality in the Americas, where we have been operating for over 30 years

- 10 producing silver and gold operations¹
- Advancing an extensive mine optimization study at **Jacobina**
- Potential for silver growth: **La Colorada Skarn, Escobal & Navidad**
- Large silver & gold mineral **reserves**: 452 Moz Ag and 6.3 Moz Au²

Revenue by Jurisdiction³

For the period ended June 30, 2025

1. Excludes Dolores, which has entered the residual leaching phase.
2. Pan American estimated mineral reserves and mineral resources reported as of June 30, 2025. See slides 42 – 47 for more detailed information on the Company's reserves and resources. Pan American's mineral reserve estimates do not include the mineral reserves resulting from the Company's acquisition of MAG Silver Corp. ("MAG" or "MAG Silver") which was completed on September 4, 2025. Please refer to the news releases dated May 11, 2025 and September 4, 2025 for details.
3. Figures may not sum to 100% due to rounding.

JUANICIPIO: ONE OF THE BEST SILVER MINES GLOBALLY

// Juanicipio is a large-scale, high-grade, low-cost silver mine located in Zacatecas, Mexico

Juanicipio is the Largest-Scale and Lowest-Cost Primary Silver Mine Globally¹

Rare Opportunity to Acquire 1st Quartile Silver Asset¹

Source: The Silver Institute, S&P Global, company filings.

1. Figures are 2024 figures as per S&P Global, except Uchucchacua and Cerro Los Gatos based on 2025 forecasts given limited data availability. AISC is a non-GAAP measure; figures are displayed on a co-product basis and is calculated by S&P Global. As a result, figures may not tie with what is provided in each company's respective public disclosure.

CONTRIBUTES HIGH-MARGIN OUNCES

// Juanicipio represents a 1st quartile silver asset by production and costs

Addition of Juanicipio expected to reduce Pan American's Silver Segment AISC^{1,2}

✓ **Significant increase to Pan American's silver production**

Juanicipio forecasted by MAG to produce 14.7 Moz to 16.7 Moz in 2025²
(6.5 Moz to 7.3 Moz net to Pan American / MAG)

✓ **Meaningful reduction in Pan American's silver segment AISC**

Juanicipio cash cost and AISC forecasted by MAG to range between (\$1.00) to \$1.00 and \$6.00 to \$8.00 per silver oz, respectively, in 2025^{1,2}

Note: Please refer to the forward-looking cautionary language on slide 2 of this presentation.

1. AISC is a non-GAAP financial measure. Please refer to the section "Alternative Performance (Non-GAAP) Measures" of Pan American's Management's Discussion & Analysis ("MD&A") for the period ended June 30, 2025 ("Q2 2025"), for a detailed description of these measures and where appropriate a reconciliation of the measure to Q2 2025 Financial Statements.
2. Based on mid-point of 2025E guidance. For San Vicente, Cerro Moro, Huaron, and La Colorada, please refer to the Company's Q4 2024 MD&A dated February 19, 2025 for Pan American's operating outlook for 2025. For Juanicipio, please refer to MAG's news release dated March 24, 2025.
3. Pan American estimated mineral reserves and mineral resources reported as of June 30, 2025. See slides 42 – 47 for more detailed information on the Company's reserves and resources. For information regarding Juanicipio, please see MAG's Annual Information Form dated March 24, 2025 available under MAG's profile at www.sedarplus.ca.

DIVESTMENTS PROVIDED OPPORTUNITIES TO INVEST IN SILVER

// Divested non-core properties while building a meaningful portfolio of royalties

1. Transaction consideration excludes an additional \$50 million in contingent payments.

2. Transaction consideration includes an additional \$10 million in contingent payments.

3. Mineros S.A. completed its acquisition of the 80% interest in the La Pepa Project on September 22, 2025. Please refer to the press release issued by Mineros S.A. on September 22, 2025 for further details.

4. Includes the total value of \$150.7M realized for Pan American's interest in Maverix Metals since the royalty company was formed in 2016, with the sale of Pan American's remaining interest in Q1 2023.

5. Includes the royalty on the Waterloo Property, which was sold to Apollo Silver in July 2021.

6. Figure is based on mid-point of 2025E guidance. Please refer to the Company's Q4 2024 MD&A dated February 19, 2025 for Pan American's operating outlook for 2025 and MAG's news release dated March 24, 2025.

M&A TRANSFORMED PAN AMERICAN INTO A PEER LEADER

Silver Peers by Market Capitalization and Annual Operating Cash Flow

Source: FactSet, S&P Global, company disclosure as at October 1, 2025.

1. Net Cash Generated from Operating Activities ("Operating Cash Flow"). | 2. Market Capitalization as at December 31, 2018; Operating Cash Flow reflects FY 2018. | 3. Market Capitalization as at October 1, 2025; Operating Cash Flow reflects FY 2024 results. Pan American includes FY 2024 Operating Cash Flow from MAG. MAG Operating Cash Flow is calculated as Operating Cash Flow plus the attributable share of the Operating Cash Flow from the Juanicipio joint venture. Coeur and Silvercrest include Operating Cash Flow for Silvercrest Metals and Gatos Silver, respectively, for the last twelve months prior to September 30, 2024, the most recent period prior to the closing of the acquisition. | 4. Figures are per company disclosure and S&P Global as at May 14, 2025, except Pan American Mineral Reserves & Resources, which are reported as of June 30, 2025. See slides 42 – 47 for more detailed information on the Company's reserves and resources. Pan American's mineral reserve estimates do not include the mineral reserves acquired through the Company's acquisition of MAG

OPERATIONS GENERATING ATTRACTIVE MARGINS

// Disciplined cost performance delivers margin expansion from higher metal price

Silver Segment AISC¹ vs Realized Price

Gold Segment AISC¹ vs Realized Price

1. AISC is a non-GAAP measure. Please refer to the section "Alternative Performance (Non-GAAP) Measures" of the MD&A for the period ended June 30, 2025 for a detailed description of this measure.

STRONG FINANCIAL POSITION

// Deploys portion of cash balance in a measured and strategic manner to invest in silver growth

At June 30, 2025:

- **Cash + short-term investments of \$1,109M**
- **Total debt⁴ of \$821M**
primarily related to senior notes:
\$283M with 4.625% coupon maturing in December 2027
\$500M with 2.63% coupon maturing in August 2031

Note: As at June 30, 2025, unless otherwise specified.

1. Total Available Liquidity is a non-GAAP measure calculated as cash and cash equivalents *plus* short-term investments, *plus* undrawn amounts under the revolving credit facility. See the “Non-GAAP Measures” section of our Cautionary Note on slide 2 of this presentation.
2. Includes MAG’s cash (\$172M) as at June 30, 2025 *plus* Pan American’s cash and short-term investments (\$1,109M) as at June 30, 2025 *less* cash consideration (\$500M).
3. Excludes transaction costs and attributable cash held in the Juanicipio joint venture.
4. Total debt is a non-GAAP measure calculated as the total current and non-current portions of: debt, including senior notes and amounts drawn on the Revolving Credit Facility, and lease obligations. The senior notes are carried at \$701.6 million as at June 30, 2025 and accreted to the face value over their respective terms using an effective interest rate of 5.52%.

CAPITAL ALLOCATION APPROACH

// Pan American's priorities for deploying free cash flow

- 1 Maintain balance sheet flexibility, with low debt
- 2 Invest in high-return projects:
 - Expansion projects
 - Acquisitions
- 3 Return to shareholders: dividends and share buybacks
 - 20% dividend increase to \$0.12 per share with respect to Q2 2025
 - Pan American has consistently paid a dividend since 2010
 - Share buyback with a discretionary approach to repurchasing shares¹

Returned approximately \$1.1B to shareholders³ since 2010 while investing in growth & maintaining a strong balance sheet

1. Please refer to the news release dated March 3, 2025 for details.

2. Capital allocation as at June 30, 2025 includes cash allocated to dividends, share buybacks, expansion capital and cash acquisition costs and net debt repayments. Figures include the \$500M in cash consideration for the acquisition of MAG which was completed on September 4, 2025, net of MAG's cash of \$172 million as at June 30, 2025. Figures may not sum to 100% due to rounding.

3. Return to shareholders is comprised of dividends and share buybacks for the period January 1, 2010 to June 30, 2025, and additionally, the dividend paid in August 2025.

LA COLORADA - EXPLORATION HIGHLIGHTS

// 52.7 Moz of silver added to inferred mineral resources

- High-grade veins and replacement-style mineralization discovered east and southeast of the defined vein resource shows resource growth of 52.7 million ounces of silver in the inferred mineral resource category.
- Pan American drilled ~65,000 m (170 holes) at La Colorada between November 2024 - June 2025, targeting infill, step-out drilling along NC2/Mariana, and systematic exploration of the southeast (San Geronimo and Cristina) vein system.
- The eastern NC2/Mariana extensions, Cristina-San Geronimo vein system, and contact-related replacement have delivered significant near-mine mineral resource expansion.

Hole No.	Zone / Structure	Est. True Width (m)*	Ag (g/t)	Au (g/t)	Pb (%)	Zn (%)
S-77-25	Mariana Vein	3.66	3,844	2.3	4.53	11.05
U-84-25	Mariana Vein	11.61	811	0.86	8.21	22.31
U-99-25	NC2 Vein	2.27	5,876	0.56	3.36	3.19
U-59-25	NC2 Vein	10.61	729	2.99	1.88	3.83
S-99-24	Volc/Sed Contact	50.30**	258	0.12	0.62	0.42
S-20-24	Volc/Sed Contact	23.15	382	0.18	1.36	3.1

*Estimated True Widths are unknown at this time; reported widths (m) are core interval widths

**Drill result previously reported in Pan American's news release dated December 9, 2024.

LA COLORADA SKARN VIEWS¹

// Mineralization is concentrated in 3 zones, covering an area of 1,500 metres x 1,100 metres, and a depth of 800 metres to 1,900 metres below surface

1. Please refer to the NI 43-101 Technical Report dated January 31, 2024, as amended, for the Preliminary Economic Assessment of the La Colorada Skarn project.

JACOBINA OPTIMIZATION STUDY

// Aimed at optimizing long-term economics and increasing throughput

- Long life mine with excellent exploration potential to extend down-dip and along strike of known conglomerate reefs
- Evaluating geotechnical studies to develop alternative life-of-mine designs intended to enhance mineral resource recovery at various production rates
- Additional studies are underway to determine optimum mine and plant capacities, enhanced ore haulage alternatives, infrastructure upgrades, plant modification designs, and production schedules

Gold Production (koz)

~8,600 tpd
Avg. Throughput in 2024

16.1 years
Reserve Life²

\$1,230/oz
2024 AISC³

1. Figure for 2023 represents full year production, including the three months that the asset was owned and operated by Yamana.
2. Calculated as contained gold in proven and probable reserves divided by 2024 gold production.
3. AISC is a non-GAAP financial measure. Please refer to the section "Alternative Performance (Non-GAAP) Measures" of the MD&A for the period ended June 30, 2025 for a detailed description of this measure and where appropriate a reconciliation of the measure to the Q2 2025 Financial Statements.

ESCOBAL

// One of the world's best silver mines

- High-quality, well-built operation with over \$500M invested¹
- One of the world's largest primary silver deposits with reserves of 264 Moz
- 3 consecutive years of production at 20 Moz Ag/year at AISC consistently below \$10/oz Ag prior to 2017
- Mine operations suspended pending completion of an ILO 169 consultation by the Guatemalan government

1. Based on development, expansion, and sustaining capital invested from 2011 to 2017.

Historical Silver Production & AISC

AISC is a non-GAAP measure; see the "Non-GAAP Measures" section of our Cautionary Note on slide 2 of this presentation.

Estimated Mineral Reserves & Mineral Resources

	Tonnes (Mt)	Grade				Contained Metal			
		Ag (g/t)	Au (g/t)	Pb (%)	Zn (%)	Ag (Moz)	Au (koz)	Pb (kt)	Zn (kt)
P&P Reserves	24.7	334	0.35	0.79	1.30	264.5	278	196	320
M&I Resources	16.5	208	0.21	0.37	0.65	110.1	110	61	106
Inferred Resources	1.9	180	0.90	0.22	0.42	10.7	54	4	8

(as of June 30, 2025)

See slides 42 – 47 for more detailed information on the Company's reserves and resources and the metal price assumptions used for these estimates.

PROVIDING INVESTORS WITH THE BEST EXPOSURE TO SILVER

// Pan American is the leading silver producer by market cap, liquidity, and silver price correlation

Silver Producers by Market Capitalization and Liquidity

1-Year Share Price Correlation to Silver Price²

Source: FactSet as at October 1, 2025.

- 1. Figures based on sum of liquidity on US and Canadian exchanges; except for Hochschild and Fresnillo which trade primarily on the London Stock Exchange. Calculated as 90-day trading average.
- 2. Figures display correlation coefficient of daily returns between the iShares Silver Trust and respective share price for the period October 1, 2024 to September 30, 2025. The iShares Silver Trust tracks the silver spot price, less expenses and liabilities, using silver bullion held in London.

POSITIVE SILVER MARKET DYNAMICS

// Growing industrial demand from global transition to decarbonization and electrification

PAN AMERICAN
— SILVER —

APPENDIX

AN EXPERIENCED OPERATOR IN THE AMERICAS

// Our executive team has decades of experience working in the Americas

Michael Steinmann

PRESIDENT & CEO

- Joined Pan American in 2004
- More than 30 years of experience in the base and precious metals industry, largely focused throughout South America in mine operations and project development

Steve Busby

CHIEF OPERATING OFFICER

- Joined Pan American in 2003
- 40 years of experience in precious metals; participated in successful mine development and construction projects throughout Mexico, the US, and other geographies

Ignacio Couturier

CHIEF FINANCIAL OFFICER

- Joined Pan American in 2002
- 25 years of experience in treasury, planning, commercial, and risk management
- Prior to joining, worked for Minera Antamina (Peru) and Rio Algom (Canada)

Christopher Lemon

CHIEF LEGAL AND HUMAN RESOURCES OFFICER, GENERAL COUNSEL

- Joined Pan American in 2017
- 25 years of experience in corporate law includes 10 years as General Counsel for First Quantum

Sean McAleer

SVP, STRATEGIC INITIATIVES

- Joined Pan American in 2006
- More than 20 years of experience in the mining industry
- Held progressively senior roles with the company and throughout Latin America

Scott Campbell

SVP, OPERATIONS & PROJECTS

- Originally joined Pan American in 2019, and re-joined in 2024
- 25 years of experience largely focused in Latin America; previously was Country GM for Ecuador at Dundee and held senior roles with Barrick in Peru and Argentina

Sam Drier

SVP, BUSINESS DEVELOPMENT

- Joined Pan American in 2019
- 25 years of experience in the mining industry, focused on M&A and business development

Martin Wafforn

SVP, TECHNICAL SERVICES & PROCESS OPTIMIZATION

- Joined Pan American in 2004
- Led and worked on various technical evaluations and feasibility studies at key portfolio assets in Mexico, Argentina, and Bolivia

Brent Bergeron

SVP, CORPORATE AFFAIRS & SUSTAINABILITY

- Joined Pan American in 2019
- Previously served in a similar role with Goldcorp, and as a senior executive with international experience in a variety of industries throughout Africa, North, South and Central America.

Chris Emerson

SVP, GEOLOGY & EXPLORATION

- Joined Pan American in 2015
- Over 20 years of geology and exploration experience in Latin America
- Prior to joining, worked for Glencore for 15 years

2025 OPERATING OUTLOOK MAINTAINED

// As provided in the Company's Q4 2024 MD&A; excludes impact of MAG acquisition

	Silver Production (Moz)	Gold Production (koz)	AISC (\$ per ounce) ¹
Silver Segment:			
La Colorada (Mexico)	5.50 – 5.80	2	20.00 – 22.00
Cerro Moro (Argentina)	2.80 – 2.90	77 – 87	6.00 – 10.00
Huaron (Peru)	3.70 – 3.90	–	16.00 – 17.50
San Vicente (Bolivia) ²	2.70 – 2.90	–	19.00 – 20.50
Silver Segment Consolidated	14.70 – 15.50	79 – 89	16.25 – 18.25
Gold Segment:			
Jacobina (Brazil)	–	185 – 195	1,275 – 1,375
El Peñon (Chile)	3.70 – 3.80	120 – 130	1,185 - 1,285
Timmins (Canada)	–	120 – 130	2,100 - 2,200
Shahuindo (Peru)	0.25	125 – 135	1,735 - 1,835
Minera Florida (Chile)	0.45	78 – 90	1,700 - 1,850
Dolores (Mexico)	0.90 – 1.00	28 – 31	850 - 1,000
Gold Segment Consolidated	5.30 – 5.50	656 – 711	1,525 - 1,625
Total Consolidated Production	20.00 – 21.00	735 – 800	

Consolidated Base Metal Production

Zinc (kt)	42 – 45
Lead (kt)	21 – 22
Copper (kt)	4

Note: Please refer to the forward-looking cautionary language on slide 2 of this presentation. Please refer to the Company's Q4 2024 MD&A dated February 19, 2025 for our operating outlook for 2025.

1. AISC is a non-GAAP measure. Please refer to the "Alternative Performance (Non-GAAP) Measures" section of the MD&A for the period ended June 30, 2025 for further information on this measure. The AISC forecasts assume average metal prices of \$30.00/oz for silver, \$2,650/oz for gold, \$3,000/tonne (\$1.36/lb) for zinc, \$2,000/tonne (\$0.91/lb) for lead, and \$9,500/tonne (\$4.31/lb) for copper; and average annual exchange rates relative to 1 USD of 20.00 for the Mexican peso ("MXN"), 3.75 for the Peruvian sol ("PEN"), 1,177 for the Argentine peso ("ARS"), 7.00 for the Bolivian boliviano ("BOB"), 1.38 for the Canadian dollar ("CAD"), 950.00 for the Chilean peso ("CLP") and 5.75 for the Brazilian real ("BRL").

2. San Vicente data represents Pan American's 95.0% interest in the mine's production.

2025 QUARTERLY OPERATING OUTLOOK¹

// As provided in the Company's Q4 2024 MD&A; excludes impact of MAG acquisition

- **Gold production** is expected to be more heavily weighted to the fourth quarter than indicated in the table below, as some production from the third quarter is expected to be deferred.
- **Silver Segment AISC** was towards the low end of Q2 Guidance, as a result of higher by-product credits from a higher ratio of gold to silver produced and sold, as well as higher realized gold prices, at Cerro Moro.
- **Gold Segment AISC** was towards the low end of Q2 Guidance as a result of: higher by-product credits from higher realized silver prices coupled with strong production at the Chilean operations; lower than expected sustaining capital at Shahuindo and Jacobina due to project delays, and higher than expected gold and silver production from residual leaching at Dolores.
- **Taxes paid** are front-end loaded; \$163.4M of the estimated \$240M - \$260M of cash taxes were paid in H1 2025.

	Q2 Actual	Q1 Guidance	Q2 Guidance	Q3 Guidance	Q4 Guidance	FY 2025 Guidance
Silver Production (Moz)	5.09	4.75 – 5.00	4.95 – 5.20	5.10 – 5.35	5.20 – 5.45	20.00 – 21.00
Gold Production (koz)	178	175 – 189	179 – 194	189 – 205	192 – 212	735 – 800
Silver Segment AISC ^{1,2}	19.69	21.00 – 22.25	19.50 – 21.25	14.25 – 16.25	10.25 – 13.00	16.25 – 18.25
Gold Segment AISC ^{1,2}	1,611	1,575 – 1,675	1,550 – 1,650	1,500 – 1,600	1,500 – 1,600	1,525 – 1,625

Note: Please refer to the forward-looking cautionary language on slide 2 of this presentation. Please refer to the Company's Q4 2024 MD&A dated February 19, 2025 for our operating outlook for 2025.

1. AISC is a non-GAAP measure. Please refer to the "Alternative Performance (Non-GAAP) Measures" section of the Q2 2025 MD&A for further information on this measure. The AISC forecasts assume average metal prices of \$30.00/oz for silver, \$2,650/oz for gold, \$3,000/tonne (\$1.36/lb) for zinc, \$2,000/tonne (\$0.91/lb) for lead, and \$9,500/tonne (\$4.31/lb) for copper; and average annual exchange rates relative to 1 USD of 20.00 for the Mexican peso ("MXN"), 3.75 for the Peruvian sol ("PEN"), 1,177 for the Argentine peso ("ARS"), 7.00 for the Bolivian boliviano ("BOB"), 1.38 for the Canadian dollar ("CAD"), 950.00 for the Chilean peso ("CLP") and 5.75 for the Brazilian real ("BRL").
2. AISC excludes NRV inventory adjustments.

2025 EXPENDITURES FORECAST

// As provided in the Company's Q4 2024 MD&A; excludes impact of MAG acquisition

Project capital invested to advance strategic goals:

- La Colorada (Skarn) - continued exploration and in-fill drilling, and engineering work
- Jacobina - advancing the mine and plant optimization study
- La Colorada (Veins) - exploration, mine infrastructure, and mine equipment leases related to the prospective, higher-grade eastern zone of the mine
- Timmins - stage six tailings storage facility and exploration at satellite deposits
- Huaron - residual project capital for the new filtered tailings storage facility

	Expenditures (\$ millions)
Sustaining Capital	
La Colorada (Mexico)	19.0 - 21.0
Cerro Moro (Argentina)	10.0 - 11.0
Huaron (Peru)	18.0 - 19.0
San Vicente (Bolivia) ¹	4.5
Jacobina (Brazil)	58.0 - 60.0
El Peñon (Chile)	33.0 - 35.0
Timmins (Canada)	39.0 - 41.0
Shahuindo (Peru)	67.0 - 71.0
Minera Florida (Chile)	21.0 - 22.0
Dolores (Mexico)	0.5
Sustaining Capital Sub-total	270.0 - 285.0
Project Capital	
La Colorada (Veins) (Mexico)	10.0 - 12.0
La Colorada (Skarn) (Mexico)	39.0 - 42.0
Huaron (Peru)	12.0 - 13.5
Timmins (Canada)	18.0 - 20.0
Jacobina (Brazil)	11.0 - 12.5
Project Capital Sub-total	90.0 - 100.0
Total Capital Expenditures	360.0 - 385.0
Reclamation Expenditures	28.0 - 34.5
General and Administrative	80.0 - 85.0
Care & Maintenance	20.5 - 24.0
Exploration and Project Development	15.0 - 20.0
Income Tax Payments²	240.0 - 260.0
Depreciation and Amortization	450.0 - 500.0

Note: Please refer to the forward-looking cautionary language on pages 2 and 3 of this presentation. Please refer to the Company's Q4 2024 MD&A dated February 19, 2025 for our expenditures forecast for 2025.

1. Capital expenditures at San Vicente are shown at a 100% ownership.

2. Taxes paid are front-end loaded; \$163.4 of the estimated \$240M - \$260M of cash taxes were paid in H1 2025.

SHAREHOLDER RETURNS

Dividend Policy

Pan American supplements a base dividend of \$0.10 per common share with a variable dividend, paid on a quarterly basis, that is linked to the net cash¹ position for the previous quarter

QUARTERLY DIVIDEND PER COMMON SHARE

Q2 2025 Net Cash¹ = \$260.2 million

Share Buyback (Normal Course Issuer Bid)

Pan American believes that the market price of its common shares, from time to time, may not fully reflect the underlying value of its mining operations and future growth prospects

- Since March 2024, Pan American has purchased ~3.1M common shares at a volume weighted average price of ~\$17.96 per common share, as at June 30, 2025.
- Pan American renewed its Normal Course Issuer Bid (the “Bid”), which will run from March 6, 2025 to March 5, 2026².
- The Bid allows the repurchase of up to 5% of Pan American’s issued and outstanding common shares as at February 28, 2025.
- All common shares acquired by Pan American will be cancelled and purchases will be funded out of working capital, making it an attractive use of excess cash.

1. Net cash is calculated as cash and cash equivalents plus short-term investments, other than equity securities, less total debt. Net cash and total debt are non-GAAP measures and do not have standardized meaning prescribed by IFRS and are therefore unlikely to be comparable to similar measures presented by other companies; please refer to the “Alternative Performance (non-GAAP) Measures” section of our MD&A for the period ended June 30, 2025, for a discussion of various non-GAAP measures.

2. Please refer to the news release dated March 3, 2025 for details.

SUSTAINABILITY GOVERNANCE AND MANAGEMENT

// Structure and Accountability

BOARD OF DIRECTORS

- The Communities and Sustainable Development Committee reviews the Company's sustainability performance and management of sustainability impacts.
- The Health, Safety and Environment Committee provides policy direction and oversight of the performance on safety and technical matters relating to the environment.
- The Nominating and Governance Committee oversees the implementation of governance best practices and compliance with the Company's Code of Ethical Conduct.
- The Human Resources and Compensation Committee Oversees human resources, inclusion and diversity initiatives, compensation, and succession planning.

CORPORATE MANAGEMENT TEAM

- Our CEO and senior leadership direct and oversee strategy, programs, initiatives, and performance related to communities, health and safety, environment and human capital. They also monitor the performance of ESG indicators monthly.
- The ESG Management Committee is responsible for guiding Pan American Silver's ESG strategy and management to improve performance.

COUNTRY MANAGERS

- Oversee and manage sustainability matters in each of the countries where we operate.

MINE MANAGERS

- Implement sustainability programs and initiatives and supervise teams responsible for community relations, environment, safety, and human resources.

Senior Management's Compensation linked to ESG Performance

5% reduction in compensation score for each work-related fatality

1. Frequency of lost time injuries with high fatality potential (LT-HPIF), ratio of lost workdays to exposure of non-fatal lost time injuries (NF-LTIS) and Corrective and Prevention Actions (CAPA) targets.
2. Significant Environmental Incidents (SEIs) target.
3. Inclusion & Diversity (hiring and retention of women) targets.
4. Leadership Development Program target.

JUANICIPIO

Ag Au Zn Pb

TYPE	LOCATION	OWNERSHIP
------	----------	-----------

Underground Mine	Zacatecas, Mexico	44%
------------------	-------------------	-----

- Juanicipio is one of the largest and lowest-cost primary silver mines in the world.
- Pan American's interest in Juanicipio was acquired in September 2025 pursuant to the acquisition of MAG Silver.
- Located in one of the world's most prolific silver mining camps, adjacent to other large-scale silver mines including Fresnillo and Saucito.
- Produces silver-rich lead, zinc, and pyrite concentrates from a floatation plant with a nameplate capacity of 3,750 tpd.
- Primary mining method is longhole open-stopping with waste rockfill.

- Note: All data is displayed at Pan American's attributable 44% interest unless otherwise specified.
- 2025F production, throughput, and AISC figures are based on MAG's 2025 Guidance for Juanicipio. Please refer to MAG's news release dated March 24, 2025.
 - Throughput reported by Pan American does not tie to MAG's disclosure as Pan American calculates tonnes per day ("tpd") as annual tonnes divided by 365 days, while MAG calculated as annual tonnes divided by operating days. Throughput is stated on a 100% basis.
 - AISC is a non-GAAP measure. Figures displayed as calculated and reported by MAG Silver; underlying methodology and assumptions do not necessarily tie to Pan American's methodology and assumptions. Please refer to MAG's disclosure for more details on non-GAAP measures calculated by MAG Silver.
 - AISC was not reported by MAG in 2022.

Opportunities

Expand known inferred mineral resources that remain open at depth and laterally

Regional opportunities remain at Mesa Grande, Triunfo, and vein projections of Saucito principal structures into the joint venture area

Work collaboratively with Fresnillo to advance the potential of Juanicipio

LA COLORADA

Ag Pb Zn

TYPE	LOCATION	OWNERSHIP
------	----------	-----------

Underground Mine	Zacatecas, Mexico	100%
------------------	-------------------	------

- Produces silver-rich lead and zinc concentrates from a flotation plant treating sulphide ore, 650 tpd oxide plant on stand-by as ore flow demands
- \$10 to \$12 million project capital in 2025 for exploration, mine infrastructure, and mine equipment leases to access, mine, and expand mineral resource extensions in the deep eastern and southeastern extensions of the higher-grade Candelaria mineralized structure
- Throughput reached an average of 2,130 tpd in Q2 2025 following completion of new ventilation infrastructure and acceleration in underground developments

1. 2025F production, throughput, and AISC figures are based on our 2025 Guidance. Please refer to the Company's MD&A for the period ended December 31, 2024 for our 2025 Guidance and to the Cautionary Note on slide 2 of this presentation.
2. AISC is a non-GAAP measure. Please refer to the section "Alternative Performance (Non-GAAP) Measures" of the MD&A for the period ended June 30, 2025 for a detailed description of these measures.
3. Mineral Reserves and Resources are as at June 30, 2025. Please refer to slides 42 – 47 of this presentation for detail of our Mineral Reserves and Resources. A portion of La Colorada's mineral reserves and resources are subject to a net profit share agreement with a third party, please refer to the footnotes on pages 44 – 47 for details.

Opportunities

Leveraging new 5.5 metre concrete-lined ventilation blind excavated shaft and twin 2000-HP fan infrastructure to increase throughput and reach higher-grade areas of the mine

Exploration to the east of NC2 and south on the San Geronimo and Cristina Vein systems within and adjacent to Pan American owned concessions

Increasing ramp and development advance rates (+5% over 2024) and progressing on rehabilitations & cross-cut drifts to enhance productivities mid-2025

LA COLORADA SKARN

// Exploring long-term partnerships to develop the project

Preliminary Economic Assessment¹ Highlights

- Production averaging 17.2 Moz of silver, 427 kt of zinc and 218 kt of lead annually during the first 10 years
- 50,000 tpd sub-level cave (SLC) mine and conventional flotation plant
- 17-year mine life and continued exploration upside
- After-tax NPV_{8%} of \$1,087M, 14% after-tax internal rate of return, and payback period of 4.3 years estimated using long-term prices of \$22/oz of silver, \$2,800/tonne of zinc, and \$2,200/tonne of lead
- Estimated initial capital cost \$2,829M

The PEA is preliminary in nature, includes inferred mineral resources that would be considered too speculative geologically to have the economic considerations applied to them that would enable them to be categorized as mineral reserves, and there is no certainty that the preliminary economic assessment will be realized.

Updated Mineral Resource Estimate²

	Tonnes (Mt)	Grade			Contained Metal		
		Ag (g/t)	Zn (%)	Pb (%)	Ag (Moz)	Zn (kt)	Pb (kt)
Indicated	265.4	36	2.85	1.37	309	7,554	3,649
Inferred	61.7	30	2.55	0.95	59	1,573	585

1. For details on the La Colorada Skarn project Preliminary Economic Assessment ("PEA"), please refer to the NI 43-101 Technical Report dated January 31, 2024, as amended, and to the slide entitled "La Colorada Skarn PEA results summary".
2. Pan American Mineral Reserves and Mineral Resources are as at June 30, 2025, and are updates to the model used for the PEA of the La Colorada Skarn project. Please refer to slides 42 – 47 of this presentation for detail of our Mineral Reserves and Resources.

JACOBINA

Au

TYPE	LOCATION	OWNERSHIP
------	----------	-----------

Underground Mine	Bahia, Brazil	100%
------------------	---------------	------

- Jacobina is an ~8,400 tpd underground reef-style deposit and underground mine producing dore through a conventional leaching carbon-in-pulp process
- Pan American acquired the mine in March 2023 pursuant to its acquisition of Yamana
- The core operating area currently has seven mines over roughly 8km of strike length with further extensions along strike planned over the life of mine, feeding a central processing facility with a current reserve life of 16.1 years¹ and a strong history of reserve replacement from mine depletion.

- Calculated as contained gold in proven and probable reserves divided by 2024 gold production.
- 2025F production, throughput, and AISC figures are based on our 2025 Guidance. Please refer to the Company's MD&A for the period ended December 31, 2024 for our 2025 Guidance and to the Cautionary Note on slide 2 of this presentation.
- AISC is a non-GAAP measure. Please refer to the section "Alternative Performance (Non-GAAP) Measures" of the MD&A for the period ended June 30, 2025 for a detailed description of these measures. AISC figures for 2022 are re-calculated using Pan American's accounting treatment for illustrative purposes.
- Mineral Reserves and Resources are as at June 30, 2025. Please refer to slides 42 – 47 of this presentation for detail of our Mineral Reserves and Resources.
- Production figures for 2023 represent the full year of production, including the three months that the asset was owned and operated by Yamana. AISC figures for 2023 are for the nine months that the asset was owned and operated by Pan American.
- Gold Equivalent Ounces ("GEO").
- Yamana's accounting treatment for AISC is not consistent with Pan American's accounting treatment. Thus, Pan American's accounting treatment has been applied retroactively for comparative purposes.

Opportunities

Mine optimization study underway to maximize life-of-mine economics

Excellent exploration potential to extend down-dip and along strike of known conglomerate reefs

Highly skilled and motivated workforce

Underground Mine	Potosi, Bolivia	95%
------------------	-----------------	-----

- Produces silver-zinc and silver-lead concentrates through selective floatation processes
- Pan American has been mining at San Vicente since 2009
- Nominal mine and plant capacity of approximately 1,000 tpd
- Successful exploration has extended mine life

Note: All data is displayed at Pan American's attributable 95% ownership unless otherwise specified.

1. 2025F production, throughput, and AISC figures are based on our 2025 Guidance. Please refer to the Company's MD&A for the period ended December 31, 2024 for our 2025 Guidance and to the Cautionary Note on slide 2 of this presentation.
2. Throughput is on an 100% basis.
3. AISC is a non-GAAP measure. Please refer to the section "Alternative Performance (Non-GAAP) Measures" of the MD&A for the period ended June 30, 2025 for a detailed description of these measures.
4. Mineral Reserves and Resources are as at June 30, 2025. Please refer to slides 42 – 47 of this presentation for detail of our Mineral Reserves and Resources.

Opportunities

Leverage steady state production to strengthen silver segment

Near mine exploration to replace resources; veins and geophysical anomalies south of the main infrastructure

MINERA FLORIDA

TYPE	LOCATION	OWNERSHIP
------	----------	-----------

Underground Mine	Metropolitan Region, Chile	100%
------------------	----------------------------	------

- Minera Florida consists of several vein structures that are mined underground and processed to produce gold and silver dore bars and zinc concentrate
- Pan American acquired the mine in March 2023 pursuant to its acquisition of Yamana
- Mining is conducted using various underground variations on sublevel stoping
- Processing facilities utilize a unique combination of floatation and leaching circuits to produce both dore and concentrate products

1. 2025F production, throughput, and AISC figures are based on our 2025 Guidance. Please refer to the Company's MD&A for the period ended December 31, 2024 for our 2025 Guidance and to the Cautionary Note on slide 2 of this presentation.
2. Includes 3rd party toll treated ores.
3. AISC is a non-GAAP measure. Please refer to the section "Alternative Performance (Non-GAAP) Measures" of the MD&A for the period ended June 30, 2025 for a detailed description of these measures. AISC figures for 2022 are re-calculated using Pan American's accounting treatment for illustrative purposes.
4. Mineral Reserves and Resources are as at June 30, 2024. Please refer to slides 42 – 47 of this presentation for detail of our Mineral Reserves and Resources.
5. Production figures for 2023 represent the full year of production, including the three months that the asset was owned and operated by Yamana. AISC figures for 2023 are for the nine months that the asset was owned and operated by Pan American.
6. Yamana's accounting treatment for AISC is not consistent with Pan American's accounting treatment. Thus, Pan American's accounting treatment has been applied retroactively for comparative purposes.

Opportunities

Ongoing exploration of the core mine down dip and laterally. Continued near-site exploration to the north, east and at depth where the veins are under-explored

Exploration has consistently extended life of mine over the last couple of decades

CERRO MORO

Ag

Au

TYPE	LOCATION	OWNERSHIP
Open-Pit & Underground	Santa Cruz, Argentina	100%

- The operation is included in Pan American's Silver Segment
- Pan American acquired the mine pursuant to its acquisition of Yamana
- Operation consists of several open pit and underground mines, producing gold and silver dore through a conventional leaching and Merrill-Crowe process.
- The mines feed a single processing plant at a rate of ~1,100 tpd

1. 2025F production, throughput, and AISC figures are based on our 2025 Guidance. Please refer to the Company's MD&A for the period ended December 31, 2024 for our 2025 Guidance and to the Cautionary Note on slide 2 of this presentation.
2. AISC is a non-GAAP measure. Please refer to the section "Alternative Performance (Non-GAAP) Measures" of the MD&A for the period ended June 30, 2025 for a detailed description of these measures. AISC figures for 2022 are recalculated using Pan American's accounting treatment for illustrative purposes.
3. Mineral Reserves and Resources are as at June 30, 2025. Please refer to slides 42 – 47 of this presentation for detail of our Mineral Reserves and Resources.
4. Production figures for 2023 represent the full year of production, including the three months that the asset was owned and operated by Yamana. AISC figures for 2023 are for the nine months that the asset was owned and operated by Pan American.
5. Yamana reported AISC figures based on GEO ounces and is not consistent with Pan American's treatment. However, for comparison purposes we have recalculated 2022 AISC figures from \$1,241 per GEO to \$5.34 per Ag ounce.
6. Yamana's accounting treatment for AISC is not consistent with Pan American's accounting treatment. Thus, Pan American's accounting treatment has been applied retroactively for comparative purposes.

Opportunities

Possible reduction in costs may allow us to convert previously uneconomic lower-grade resources to reserves

LA COLORADA SKARN PEA RESULTS SUMMARY

// 50,000 tpd case

Construction period	6 years
Production mine life	17 years
Production rate	50 ktpd (or 18.25 Mtpa)
Mineable inventory	284.7 million tonnes
Average annual silver produced first 10 years	17.2 million ounces
Average annual zinc produced first 10 years	427 thousand tonnes
Average annual lead produced first 10 years	218 thousand tonnes
Unit operating costs	\$40.88 per tonne
Total revenue	\$23,853 million
Initial capital	\$2,829 million
Total LOM sustaining capital	\$951 million
Total LOM operating cost	\$11,638 million
Cumulative after-tax cash flow	\$5,689 million
After-tax NPV _(5%)	\$2,182 million
After-tax NPV _(6.5%)	\$1,572 million
After-tax NPV _(8%)	\$1,087 million
After-tax IRR	14%
Payback period (after-tax, undiscounted)	4.3 years

The PEA is preliminary in nature, includes inferred mineral resources that would be considered too speculative geologically to have the economic considerations applied to them that would enable them to be categorized as mineral reserves, and there is no certainty that the preliminary economic assessment will be realized.

Notes:

1. Assumes metal prices of \$2,800 per tonne of zinc, \$2,200 per tonne of lead, and \$22.00 per ounce of silver.
2. For additional information, including a sensitivity analysis, please refer to the La Colorada NI 43-101 Technical Report dated January 31, 2024, as amended.

(3) This table does not include mineral resources resulting from Pan American's acquisition of MAG, including from Pan American's share of Juanicipio's mineral resources and from the Larder Project

(4) This table has been updated to reflect the completion of the sale of Pan American's interest in La Pepa on September 22, 2025.

(5) La Colorada Inferred resources include 1.2 Mt at an average grade of 560 g/t Ag and 0.25 g/t Au containing 21.3 million ounces of silver and 9.5 thousand ounces of gold that are subject to a net profit share agreement with a third party.

(6) This information represents the portion of mineral resources attributable to Pan American based on its ownership interest in the operating entity as indicated.

(7) Totals may not add up due to rounding. Grades are calculated on total tonnes.

METAL PRICE ASSUMPTIONS USED TO ESTIMATE MINERAL RESERVES & RESOURCES

as of June 30, 2025

Mine	Category	Ag US\$/oz	Au US\$/oz	Cu US\$/t	Pb US\$/t	Zn US\$/t
Escobal	All categories	20.00	1,300		2,204	2,424
La Colorada	Reserves	22.00	1,900		2,100	2,600
	Resources	24.00	2,050		2,200	2,800
La Colorada Skarn	Resources	22.00			2,200	2,800
Huaron	Reserves	22.00		8,000	2,100	2,600
	Resources	24.00		9,000	2,200	2,800
San Vicente	Reserves	22.00		8,000	2,100	2,600
	Resources	24.00		9,000	2,200	2,800
Cerro Moro	Reserves	28.00	2,500			
	Resources	30.00	2,650			
Navidad	All categories	12.52			1,100	
Manantial Espejo	Resources	22.00	1,700			
Jacobina	Reserves		1,900			
	Resources		2,050			
Shahuindo	Reserves	22.00	1,900			
	Resources	24.00	2,050			
El Peñon	Reserves	25.00	2,250			
	Resources	27.00	2,400			

METAL PRICE ASSUMPTIONS USED TO ESTIMATE MINERAL RESERVES & RESOURCES

as of June 30, 2025

Mine	Category	Ag US\$/oz	Au US\$/oz	Cu US\$/t	Pb US\$/t	Zn US\$/t
Timmins	Reserves		2,250			
	Resources		2,400			
Whitney	Resources		2,400

Arco Sul	Resources		1,250			

GENERAL NOTES APPLICABLE TO THE FOREGOING TABLES:

All mineral reserves and mineral resources have been estimated in accordance with the *CIM Definition Standards on Mineral Resources and Mineral Reserves*, adopted by the CIM Council, as amended (the "CIM Standards") and reported in accordance with National Instrument 43-101 – *Standards of Disclosure for Mineral Projects* ("NI 43-101"). Mineral resources are reported exclusives of mineral reserves.

Pan American does not expect these mineral reserve and mineral resource estimates to be materially affected by metallurgical, environmental, permitting, legal, taxation, socio-economic, political, and marketing or other relevant issues.

The Company has undertaken a verification process with respect to the data disclosed in this presentation. The mineral resource and mineral reserves databases comprising drilling and, in some cases, surface and underground sampling, have been compiled at each of the Pan American mine sites by the qualified staff. All the assay data used in the resource evaluation provided by each of the mines has been subjected to the industry standard quality assurance and quality control ("QA/QC") program including the submission of certified standards, blanks, and duplicate samples. The results are reviewed monthly by management. The results of the QA/QC samples submitted for the resource databases demonstrate acceptable accuracy and precision. The Qualified Person is of the opinion that the sample preparation, analytical, and security procedures followed for the samples are sufficient and reliable for the purpose of these mineral resource and mineral reserve estimates. Pan American is not aware of any drilling, sampling, recovery or other factors that could materially affect the accuracy or reliability of the data reported herein.

Quantities and grades of contained metal are shown before metallurgical recoveries.

Technical information contained in this presentation with respect to Pan American has been reviewed and approved by Christopher Emerson, FAusIMM., Senior Vice President Exploration and Geology, Christopher Wright, P. Geo. Vice President Mineral Resources Management, and Martin Wafforn, P.Eng., Senior Vice President Technical Services and Process Optimization, who are each Qualified Persons for the purposes of NI 43-101.

Pan American Silver Corp. is authorized by The Association of Professional Engineers and Geoscientists of the Province of British Columbia to engage in Reserved Practice under Permit to Practice number 1001470

Please refer to the disclosure under the headings "Technical Information" and "Cautionary Note to U.S. Investors Concerning Estimates of Mineral Reserves and Resources" on slide 3 of this presentation.
